

MUDGEES

4 2 2

From the moment you enter the wide tiled entry foyer, this happy family home beckons welcome.

There is an emphasis on spacious open plan living areas that includes kitchen, dining and two separate living areas and has easy access to a sheltered alfresco entertaining area.

The master bedroom features a resort style ensuite bathroom and walk in robe and the remaining three bedrooms are generous in size and have built in robes.

Quality fixtures and fittings are a highlight throughout the home and zoned reverse cycle air conditioning takes care of year round climate comfort.

A great feature of the home is that the kids can be seen from most rooms of the house plus the 1100sqm block also offers ample room for a large shed if additional garaging is required.

This much loved home is just 2 years young and with so much to offer your earliest inspection should be a priority.
