From the moment you enter the home the feeling of abundant space is apparent. High ceilings, a neutral colour palette and loads of natural light accentuate this feel.

The centrepiece of the home is the lavish custom built kitchen with its imposing island bench, high grade appliances and striking splashback. There is also a large walk-in kitchen storeroom.

The kitchen is incorporated into an enormous open living area with family, dining and sitting zones. This space is complemented by an additional lounge / home theatre room with intergrated wide screen television.

Accommodation comprises a generous master bedroom featuring a large walk in robe and an ensuite bathroom with custom stone top vanity and double shower, and three further good sized bedrooms all have built in robes.
