

COOKS GAP

Set on 10.11 hectare (approx) is a shed that has been converted into a small home, and a very neat home at that.

The home contains all the necessities such as a bathroom, laundry, kitchen with electric appliances and an open plan living and dining area with the comfort of air conditioning and a wood heater.

Water is supplied from three large tanks and the gardens are well watered by a nearby dam.

Surrounding the home is some beautiful native bushland which provides peace and quiet.

What a great little property with excellent value.
