The home boasts ducted reverse cycle air conditioning, wood heater and an open plan living/dining area.

The well appointed kitchen contains a large gas/electric oven with gas cooktop and stainless steel splash back as well as a dishwasher.

The large master bedroom has a built-in robe with floor to ceiling mirrors and direct access to the front balcony.

It gets better with direct access to the beautiful Cudgegong River, a known habitat for the platypus.

The owners will also include the 8 megalitre (approx) water licence and the pumps to pump it.

Being only a short distance from Gulgong and Mudgee this is too good to be true.
